Title your collage and choose your desired quality

The image shows a screenshot of the PicMonkey collage editor interface. On the left, there is a control panel with the following elements:

- Logo: PicMonkey
- Text: "Save this masterpiece to my computer"
- File name: "PicMonkey Collage" with a ".jpg" dropdown menu.
- Quality: Three buttons labeled "Mel", "Ewan", and "Russell". The "Russell" button is selected.
- Text: "Gorgeous, but large file size"
- Dimensions: "1024 x 1024 Change"
- File size: "762.6 KB"
- Buttons: "Save photo" (highlighted in green) and "Cancel"
- Text: "Having trouble saving your photo? Download it."

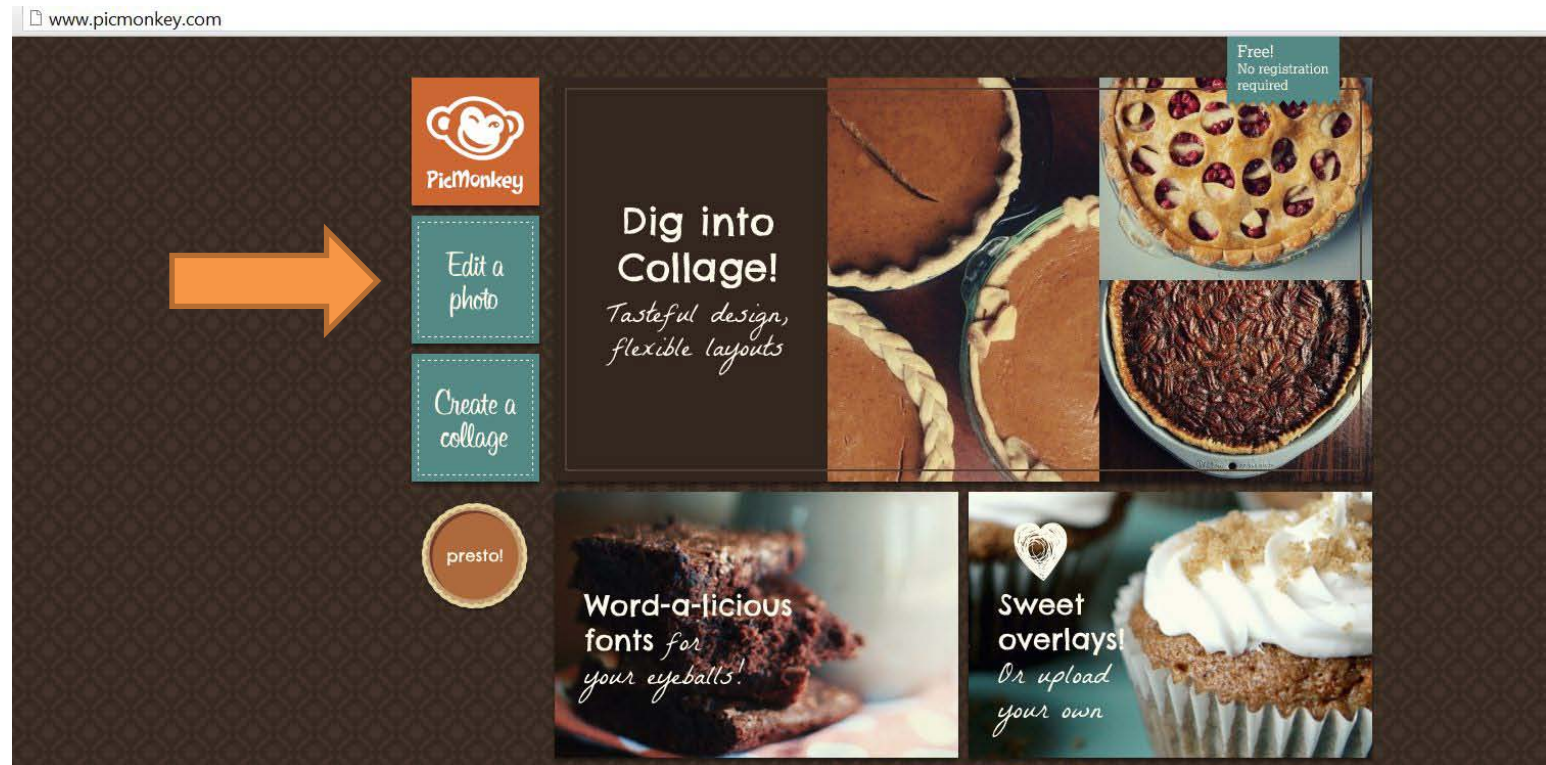

Annotations include:

- A large blue arrow pointing from the "Russell" quality button to a blue box containing the text: "Name your file and select the quality you wish".
- A blue arrow pointing from the "Save photo" button to the text: "Click save photo".

On the right side of the interface, there is a collage of 18 photographs of a dog, with a larger central image of the same dog in a field of tall grass.

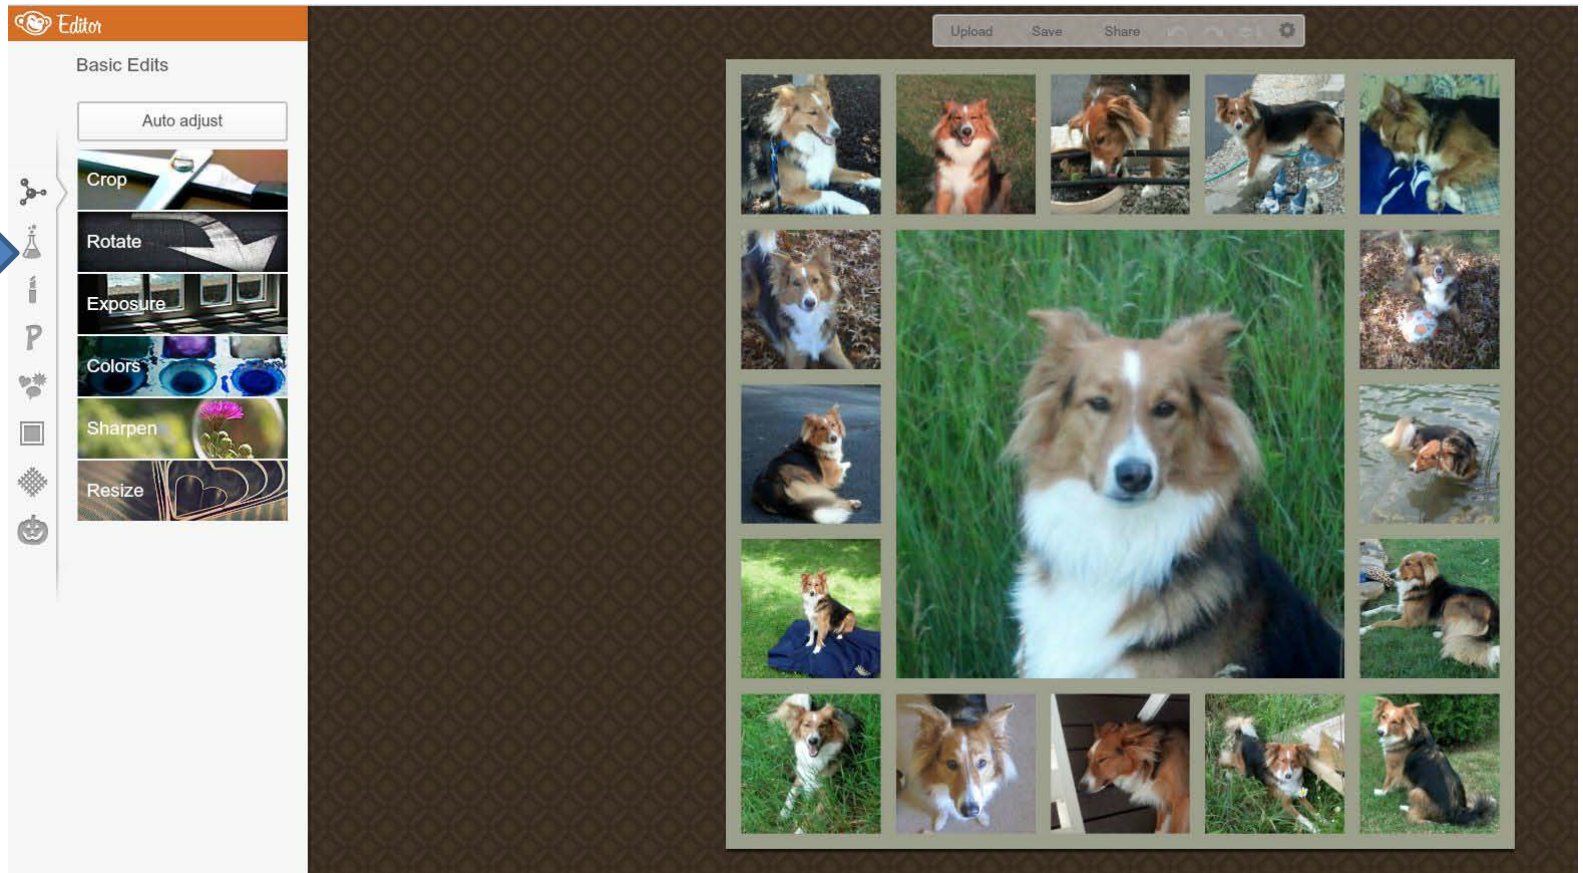

Using the Photo Editor to embellish your collage

Basic Edits

Click down this column to access the different tools

Effects

The image displays a photo editing application interface. On the left, a vertical sidebar titled "Effects" lists various filters: "Tried and True", "Orton", "Cross Process", "Dusk", "Intrepid", "Urbane", "Tranquil", "Basic", "Boost", "Soften", "Black and White", "Dark Edges", "Frost", and "Sepia". Each effect is accompanied by a small preview image. The main workspace on the right features a grid of 18 dog photos, with a large central image of a dog in tall grass. At the top right of the workspace, there are buttons for "Upload", "Save", and "Share", along with a settings gear icon.

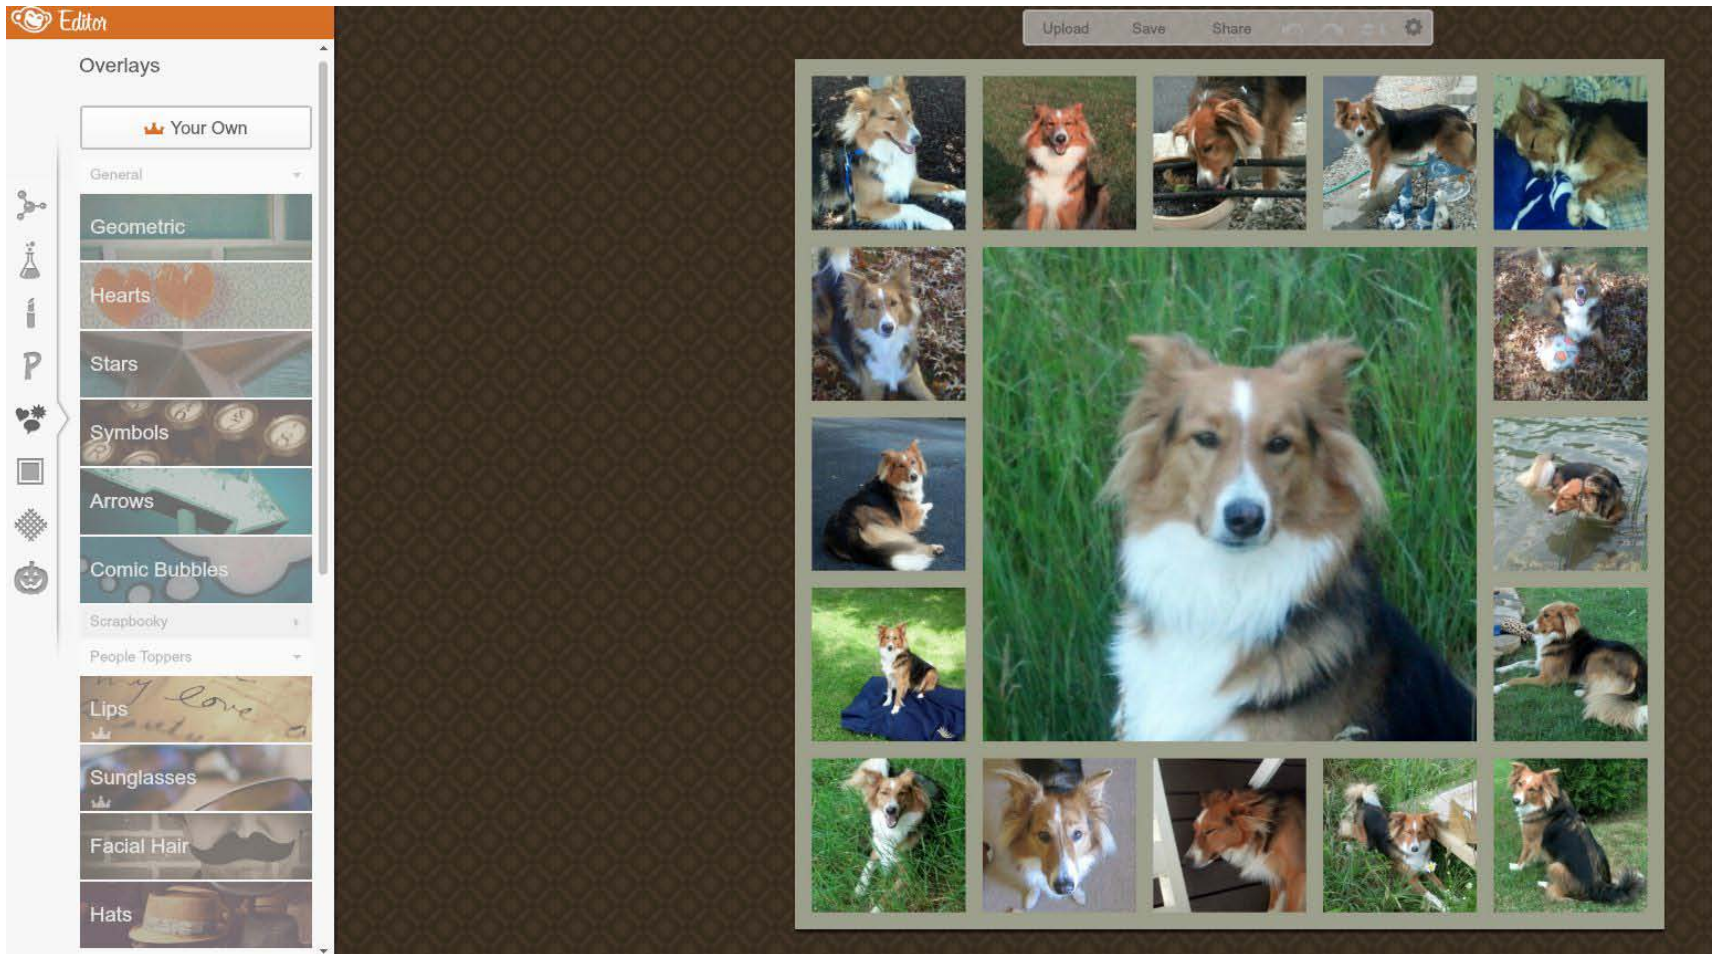

Touch Ups

The image displays a photo editing application interface. On the left, a vertical sidebar titled "Editor" contains a "Touch Up" section with the following options: Skin (Blemish Fix, Airbrush, Wrinkle Remover, Shine Reduce, Blush Boost, Spray Tan), Mouth (Teeth Whiten, Lip Tint), and Eyes (Eye Brighten, Mascara, Eye Tint). Each option is accompanied by a small thumbnail image. The main workspace on the right features a grid of 18 photos of a dog, with a larger central image of the dog in tall grass. At the top of the workspace, there are buttons for "Upload", "Save", and "Share", along with a settings gear icon.

Add Text

The image shows a screenshot of an online photo editor interface. On the left, there is a vertical sidebar with a 'Text' section. At the top of this section is a button labeled 'Add Text'. Below it is a dropdown menu for font families, currently set to 'Sans Serif'. A list of fonts is displayed, with 'Didact Gothic' highlighted in blue. Other fonts listed include 'Arial Black', 'Arial', 'Tahoma', 'Trebuchet MS', 'Varela Round', 'Verdana', 'Quicksand', 'Impact', and 'Francois One'. Below the font list is another dropdown menu for font styles, currently set to 'Serif'. A list of font styles is visible, including 'Cardo', 'Overlock', 'Georgia', 'Times New Roman', 'Droid Serif', 'Rokkit', and 'Special Elite'. The main area of the editor is a dark brown background. At the top right of this area are buttons for 'Upload', 'Save', and 'Share'. Below these buttons is a grid of 18 small images of dogs, arranged in a 3x6 grid. The central image in the grid is a large, close-up photo of a brown and white dog sitting in tall green grass. The other images are smaller, showing various dogs in different settings, such as sitting on a blue blanket, drinking from a bowl, or playing in a pond.

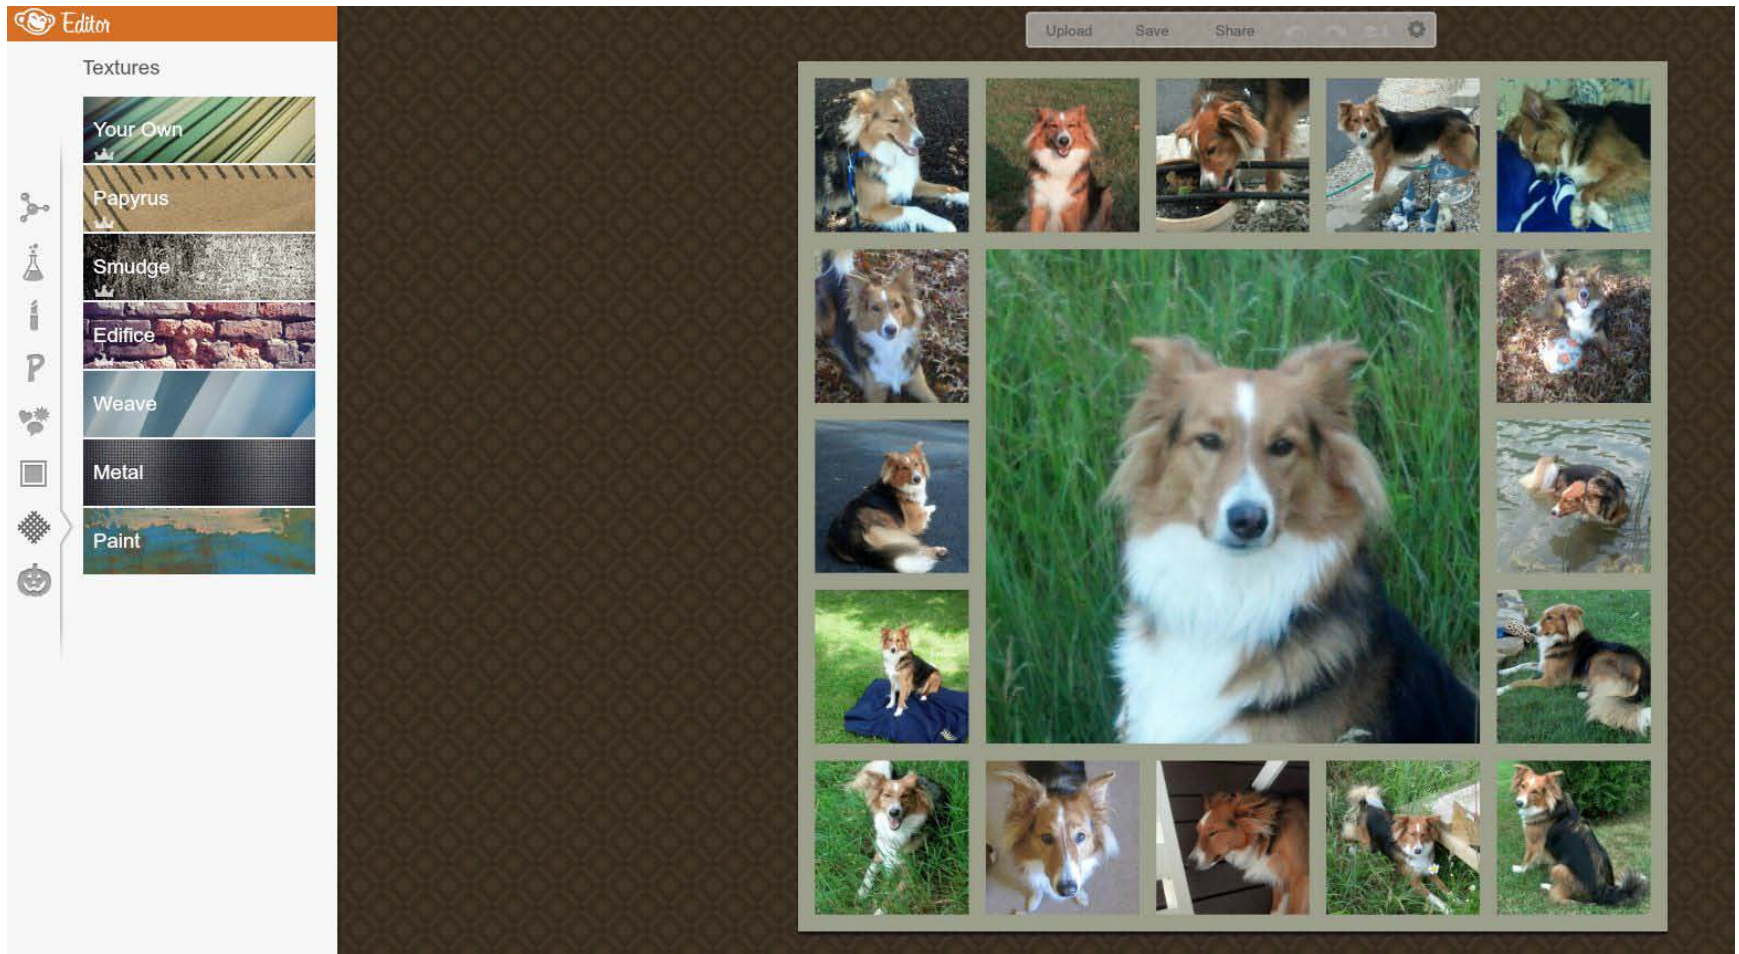

Overlays (like stickers)

Adding a Frame

The image shows a screenshot of an online photo editor interface. At the top left, the word "Editor" is displayed in a stylized font. Below it, a sidebar titled "Frames" lists various frame styles: "Rounded Corners", "Simple Edge", "Drop Shadow", "Museum Matte", "Polaroid Frame", "Photo Corners", "Film Edge", "Daguerreotype", "Craft Scissors" (marked "New"), and "Sketchedy" (marked "New"). The main workspace features a grid of 15 dog photos. A large, central photo of a brown and white dog in tall grass is the focal point. At the top right of the workspace, there are buttons for "Upload", "Save", and "Share", along with a settings gear icon.

Adding Textures

Using Themes

The image shows a screenshot of a photo editor application. On the left, there is a sidebar titled "Themes" with a vertical list of icons and theme thumbnails. The themes are: "Vampires" (dark background with a bat), "ZOMBIES" (red splatter background), "DAY of the DEAD" (black banner with white text), "Witches" (black background with white text and wings), "DEMONS" (black background with red text), and "Trick or Treat" (orange background with a spider and pumpkins). The main area of the editor is a dark brown background. At the top right, there are buttons for "Upload", "Save", and "Share", along with a settings gear icon. The central focus is a photo collage of a dog, likely a Shetland Sheepdog, with a white chest and face. The collage consists of a large central photo of the dog in tall grass, surrounded by several smaller photos of the same dog in various poses and settings. The collage is framed by a light gray border.

Tips to remember

- The save process is the same for the collage and the editor.
- Because there is no registration required, your images are not saved when you upload them to use in the collage or editor. Be sure to save your finished product.
- If you see a small orange crown on a feature, that means it is a premium feature. At the time of these directions, they were free, but will eventually be available only for an extra fee.
